## Auctioning - negative test - object name too short

\*\*\*Auctioning an item on allegro mobile application.

Attempt to add too short object name - 0 signs (boundary value testing).

Parent suite preconditions:

- 1. Internet connection.
- 2. Existing allegro.pl account.
- 3. Google/Apple account for Google Play/Apple Store access.
- 4. Allegro application installed on mobile phone.

#### Test data:

username - testing\_name;
user password - testing\_pass;

Severity	Priority	Behavior	Туре
<b>∨</b> Minor	<b>↓</b> Low	Negative	Functional
Milestone	Automation	Status	
-	Not automated	Actual	

Step	Action	Input data	Expected result
1	Tap on an Allegro app icon on your smartphone.		An Allegro app opens up.
2	Tap on "Moje Allegro" icon a on toolbar.		"Moje Allegro" bookmark shows up.
3	Tap on "LOKALNIE" tab and afterwards tap on "Wystaw przedmiot" option from the list below.		Auctioning form opens up in app.
4	Leave the "Nazwa przedmiotu" textfield empty.		Further action unavailable - "Dodaj tytuł oferty" shows up on the bottom of the form and the "WYSTAW JAKO KUP TERAZ" button in disabled.

## Auctioning - negative test - wrong price of delivery

\*\*\*Auctioning an item on allegro mobile application.

Attempt to add a wrong format of price delivery.

!!!

There is actually a minor mistake in the form - while adding text to price field it changes to NaN (Not applicable Number as I assume) but the final button "WYSTAW JAKO KUP TERAZ" does not become disabled and no statement about wrong price is present. Button still doesn't work though.

Parent suite preconditions:

- 1. Internet connection.
- 2. Existing allegro.pl account.
- 3. Google/Apple account for Google Play/Apple Store access.

Not automated

4. Allegro application installed on mobile phone.
